Subject: Letter

To Whom it May Concern,

Since approximately 2011, Buck has completed multiple projects for imaging facilities I help manage. In my opinion, he has been the most professional and most responsive GC I've worked with during my time at MedQuest. Most notably, his teams successfully completed projects for our imaging facilities in Rock Hill and Ballantyne. It's my firm belief that Buck always stands behind his work. Also, he's willing to work with our teams even after a job is complete.

Thank you.

Tom
